

COGNITIVE CAPITAL INFRASTRUCTURE

Your memory comes alive.

Mmemory turns notes, documents, testimonies and decisions into private, searchable memory that can be passed on.

Mmemory identifies, structures, secures and activates the cognitive capital of people, organisations and territories.

Four applications, one shared sovereign memory.

Mmemory Notes

Capture ideas, notes and sources in a living, connected notebook ready to be queried.

COLLECT • CONNECT • RETRIEVE

Mmemory Knowledge

Preserve the organisation's essential knowledge, decisions and reasoning.

UNDERSTAND • SOURCE • PASS ON

Mmemory Legacy

Build documented, sensitive and lasting family memory for future generations.

TELL • PRESERVE • PASS ON

Mmemory Places

Reveal the memory of a place by connecting archives, stories, people and transformations.

EMBODY • MAP • SHARE

MEMORY THAT REMAINS UNDER CONTROL

Private and sovereign

Local architecture, controlled data.

Sourced and explainable

Facts, testimonies and hypotheses distinguished.

Open and portable

Lasting formats, organised transmission.
